

USER MANUAL FOR OOP GROUP 75 SECTION 4

Running the program:

This will be displayed in the console after running the program:

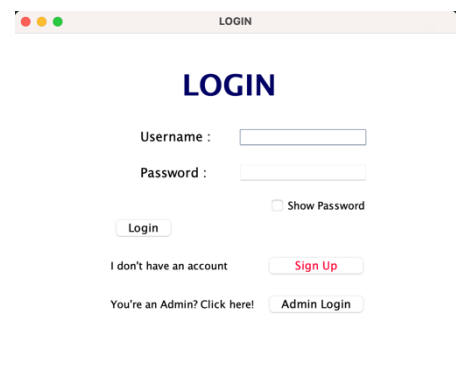

```
Welcome to XXX!
Your journey towards a more sustainable lifestyle begins here. Let's make every choice count.
Our goal is to empower individuals with knowledge and resources, fostering a deep understanding of climate change mitigation, adaptation strategies,
warning systems.

-----
These are the features we provide:
1. Login
2. Information Hub
3. Carbon Footprint Calculator
4. Community Engagement and Collaboration
5. Real-time Environmental Alerts
6. Quiz System
7. Feedback and Rating System
-----
Enter the number of your choice:
```

- Users MUST log in before they are allowed to access the features that are available in the application. If they do not log in (they select features before logging in), the login GUI will jump out forcing the users to log in and blocking the access to the features. For example, in the figures below, user selected feature 2 before logging in. The system tells the user to login, blocking the access of the feature, and the login GUI pops out asking the user to login.

```
These are the features we provide:
1. Login
2. Information Hub
3. Carbon Footprint Calculator
4. Community Engagement and Collaboration
5. Real-time Environmental Alerts
6. Quiz System
7. Feedback and Rating System
-----
```

```
Enter the number of your choice: 2
Please login to proceed.
|
```

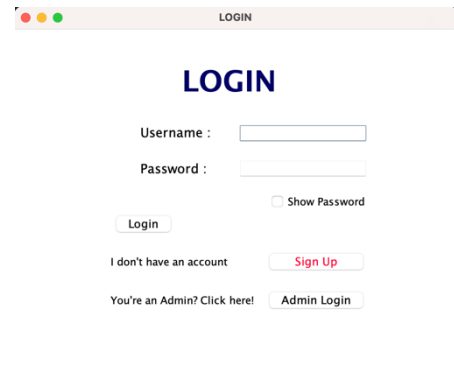

The screenshot shows a web browser window with a title bar containing three colored circles (red, yellow, green) and the text 'LOGIN'. The main content area has a blue heading 'LOGIN'. Below the heading are two input fields: 'Username :' and 'Password :'. To the right of the password field is a checkbox labeled 'Show Password'. Below these fields is a button labeled 'Login'. At the bottom left, there is a link 'I don't have an account' and a button labeled 'Sign Up'. At the bottom right, there is a link 'You're an Admin? Click here!' and a button labeled 'Admin Login'.

Registering/Logging in between Admin and Normal User

For Normal Users:

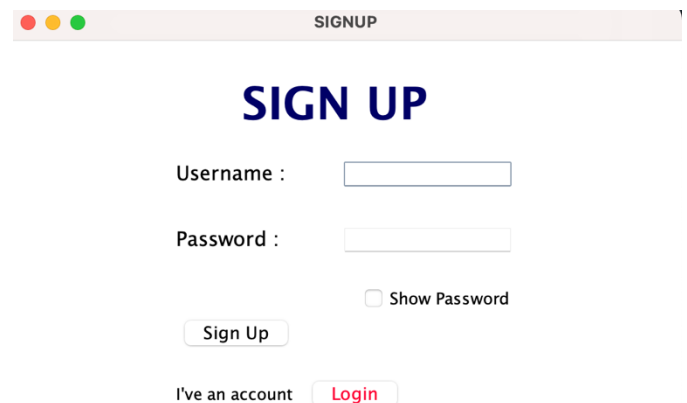

After selecting to login, a login GUI will pop out, prompting the user to input their unique username and password. If users do not have an account, proceed by clicking the 'Sign Up' button.

A screenshot of a web browser window titled "LOGIN". The page has a light gray background. At the top, the word "LOGIN" is written in blue. Below it, there are two input fields: "Username :" and "Password :". To the right of the password field is a checkbox labeled "Show Password". Below the input fields is a button labeled "Login". At the bottom, there are two links: "I don't have an account" followed by a red "Sign Up" button, and "You're an Admin? Click here!" followed by a button labeled "Admin Login".

Sign Up for normal users:

Users are required to enter their valid desired username and password. Then click 'Sign Up' to create an account. After creating an account, users are then asked to login with their newly created account to access the features.

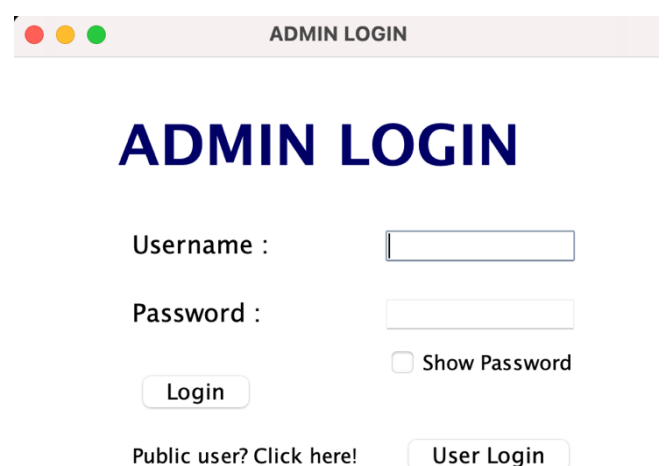

A screenshot of a web browser window titled "SIGNUP". The page has a light gray background. At the top, the word "SIGNUP" is written in blue. Below it, there are two input fields: "Username :" and "Password :". To the right of the password field is a checkbox labeled "Show Password". Below the input fields is a button labeled "Sign Up". At the bottom, there is a link "I've an account" followed by a red "Login" button.

For Admin Users:

Select 'Admin Login'. Another GUI tab will pop out specifically for admins. Admin users must enter their username and password for their premade accounts and click 'Login'.

Username: admin01

Password: 12345

A screenshot of a web browser window titled "ADMIN LOGIN". The page has a light gray background. At the top, the words "ADMIN LOGIN" are written in blue. Below it, there are two input fields: "Username :" and "Password :". To the right of the password field is a checkbox labeled "Show Password". Below the input fields is a button labeled "Login". At the bottom, there is a link "Public user? Click here!" followed by a button labeled "User Login".

Accessing features (after login for normal and admin users):

After successfully logging in, the application allows the user to access the features in the main page. These include:

- 1) Information Hub
- 2) Carbon Footprint Calculator
- 3) Community Engagement and Collaboration
- 4) Real-time Environmental Alerts
- 5) Quiz System
- 6) Feedback and Rating System

```
Welcome, Admin admin01!
```

```
-----  
These are the features available:
```

- ```
2. Information Hub
3. Carbon Footprint Calculator
4. Community Engagement and Collaboration
5. Real-time Environmental Alerts
6. Quiz System
7. Feedback and Rating System

```

```
Enter 'EXIT' to Logout.
```

```
Enter the number of your choice: |
```

- Users are required to enter the unique feature number to access the features. For example, if the user wants to learn about climate change, the user can enter '2' to access the information hub. This will be the output:

Welcome to Information Hub!

The Information Hub feature serves as a central repository of knowledge on climate change, offering users a one-stop destination to access educational content, resources, and the latest information on climate-related topics.

In this Information Hub, you can explore and research on these relevant topics:

- 
- 1) Climate Change Basics
  - 2) Education and Awareness
  - 3) Mitigation Strategies
  - 4) Adaptation Measures
  - 5) Impact Reduction Techniques
- 

Please enter a topic number to search:  
Enter 'BACK' to go back to the Main Page.

- Users can then input the topic number of their interest to access the information regarding that topic. For example, if user inputs '2' (Education and Awareness), this will be the output:

You selected the topic: Education and Awareness  
Below are some related topics pertaining to the main topic you selected:

- 
- 1) Importance of Climate Education
  - 2) Educational Programs and Initiatives.
  - 3) Public Awareness Campaigns
- 

Please enter a topic number to search:  
Enter BACK to go back to the main Information Hub page.

- Then if user inputs '1', it will display the relevant information selected by the user in the output box.  
the output will be:

Enter BACK to go back to the main Information Hub page.

1

Importance of Climate Education

**Informed Decision-Making:** Climate education empowers individuals to make informed decisions, fostering sustainable practices and influencing choices that contribute to mitigating climate change.

**Global Citizenship:** Climate education promotes a sense of global citizenship, emphasizing the interconnectedness of environmental issues and encouraging a collective responsibility for the planet.

**Youth Engagement and Leadership:** By inspiring and informing the next generation, climate education plays a crucial role in engaging youth as advocates and leaders in addressing climate challenges.

**Policy Advocacy:** Informed citizens, through climate education, are more likely to advocate for and support policies at various levels that address climate change and promote sustainable practices.

**Resilience Building:** Communities equipped with climate education are better prepared to build resilience against the impacts of climate change, fostering adaptation strategies and sustainable resource management.

## **BACK to main page and EXITING the application:**

- For users to go back to the main page, the user must enter 'BACK' in the console to return to the main page where users can either choose to continue using the application (by inputting a different feature number in the console) or to log out/exit the application by typing 'EXIT'.
